

DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING

GREEN ENERGY CLUB

“EMPOWERING NATION, EMPOWERING EARTH”

DATE – 7 th JUNE 2023

FACULTY COORDINATOR

**VENUE – INNER CIR RD
WHITEFIELD, DODSWORTH LAYOUT, BLR**

MR. VINOD KUMAR S

OBJECTIVE

The objective of the green energy marathon is to promote renewable and sustainable energy sources, raise awareness about their benefits, and inspire individuals and communities to transition towards a greener and more sustainable energy future

And, our main objective is to create a platform that fosters education, awareness, and action towards green energy. We encourage participants, volunteers, and spectators to learn about sustainable energy practices and discover ways they can integrate renewable energy solutions into their daily lives. Together, we can be catalysts for change, driving the transition towards a cleaner and more sustainable energy landscape.

INTRODUCTION

Energy Club of the Department of Electrical and Electronics Engineering has successfully organized a remarkable marathon event titled "Empowering Nation, Empowering Earth." The primary objective of this event was to raise awareness about Atmanirbhar Bharat and the importance of sustainable energy sources.

We are extremely grateful to have had the participation of around 100 enthusiastic individuals who joined us in this noble cause. Their commitment and passion for creating a greener future were truly inspiring. Additionally, we express our heartfelt gratitude to all the dedicated volunteers who selflessly contributed their time and effort to make this event a resounding success.

To ensure that everyone had a memorable experience, refreshments were provided to all the participants and volunteers, fostering a sense of camaraderie and community spirit. Furthermore, we took immense pleasure in recognizing the exceptional achievements of our top performers. The three outstanding male and female participants who demonstrated remarkable endurance and determination were honored with well-deserved medals, symbolizing their incredible accomplishments.

Due to heavy rain, we were unable to conduct the event in Jakkur; instead, we held it at Whitefield Inner Circle Ground.

ACTIVITIES

This event was a significant step towards fostering a more sustainable future, and we sincerely thank each person who played a part in making it a reality. Let us continue to work together towards building a brighter, more empowered nation and a healthier, thriving planet.

Since the strength for run was huge, we divided them into batches. Boys were teamed into 2 batches and girls to a one batch. In the first round of marathon, the participants were asked to complete 3 rounds in the ground. Whoever reaches first to the line after all 3 rounds, they were noted as finalists for next round. From boys, we finalized 3 participants from batch 1 and 3 participants from batch 2 for Round 2. Total of 6 participants qualified for round 2. In round 2, out of 6 participants we announced first 3 as the winners. Only 1 round was conducted for girls' team as the strength was less. The first 3 members were given medals as winners.

WINNERS

BOYS:

1st PLACE – Mr. ANEEL (2ND YR DEPT OF EEE)

2ND PLACE- Mr. Shubham (2ND YR DEPT OF ISE)

3RD PLACE – Mr. GOWTHAM (2ND YR DEPT OF ISE)

GIRLS:

1ST PLACE – Ms. RIDDHI BN (2ND YR DEPT OF EEE)

2ND PLACE – Ms. PREEYANKA (1ST YR DEPT OF CE)

3RD PLACE – Ms. POOJITHA M REDDY (2ND YR DEPT OF EEE)

CONCLUSION

We extend our gratitude to all our participants, volunteers, faculties for joining us in this important journey. Let's lace up our shoes, harness our collective energy and run towards a Greener Tomorrow in the Green energy Marathon.
