Prof. Kavitha C.H

- Naman Vankadari

Naman Vankadari is a dynamic figure at the intersection of law, education, and entrepreneurship. As a prominent Advocate at the High Court of Karnataka, his legal expertise is matched only by his commitment to justice. Yet, his influence extends far beyond the courtroom. Naman is also an Assistant Professor of Law, lending his knowledge to aspiring legal minds at BMS College of Law in Bengaluru. However, his passion for education doesn't stop there; he is also the driving force behind The Indian Conclave, an innovative education startup.

In his TEDx talk, Naman delves into the profound impact of knowledge within the framework of freedom of thought, belief, expression, and faith. He emphasizes the transformative power of experiential learning and intellectual awakening in shaping our society. For Naman, education is not just about memorizing facts and figures; it's about engaging with ideas, questioning assumptions, and challenging the status quo.

At the heart of Naman's philosophy is the belief in the power of ideas to effect change. He advocates for a culture of curiosity, where individuals are encouraged to explore new perspectives and push boundaries. In a world that is constantly evolving, Naman sees questioning as a fundamental tool for progress. By challenging established norms and embracing innovation, we can create a more dynamic and inclusive society.

Naman's journey is a testament to the seamless fusion of legal prowess and educational innovation. As an Advocate and Assistant Professor, he brings a unique perspective to both the legal profession and the field of education. His commitment to justice is reflected in his work in the courtroom, while his passion for education drives his efforts to inspire the next generation of thinkers and leaders.

Through The Indian Conclave, Naman is reimagining the way we approach education. By harnessing the power of technology and experiential learning, he is creating a platform where students can engage with ideas in a meaningful and impactful way. Naman's vision goes beyond traditional boundaries, challenging us to rethink the way we learn and grow.

In a world that is becoming increasingly complex, Naman Vankadari offers a refreshing perspective. He reminds us that education is not just about acquiring knowledge; it's about empowering individuals to think critically, act ethically, and contribute positively to society. As we navigate the challenges of the 21st century, Naman's message serves as a beacon of hope and inspiration. Join us in welcoming this multifaceted individual whose endeavors are shaping the future of law, education, and beyond.

## Summary:

Naman Vankadari is a prominent Advocate and Assistant Professor known for his innovative approach at the intersection of law, education, and entrepreneurship. Through his TEDx talk, he advocates for experiential learning and critical thinking. As the driving force behind The Indian Conclave, he reimagines education, emphasizing the importance of questioning norms and embracing innovation. Naman's commitment to justice and education reflects in his work, inspiring the next generation to think critically and contribute positively to society. In an increasingly complex world, his vision offers hope and inspiration, shaping the future of law, education, and beyond.

### TEDx Talk Report

Power of Knowledge.

Knowledge is gained by the education imparted to a person. The education given to a person must develop the overall personality of a man/women.

Technology has boosted this process of learning. Right way of learning will make the society a better place to live.
